Designed by

Pekka Eskelinen

"The starting point was Scandinavian simplicity and the desire to create a product portfolio which offers timeless design and space. The result was a refined and simple concept, drawn out of Nordic nature and its silence.

Like many Scandinavians, I experience the greatest sense of freedom when I am connected with nature.

There isn't a more relaxing environment than a snow-covered forest or a still lake in the summer time. The connection to nature prevails in every design. That is what makes Taiga Concept so unique."

Your Natural Workspace

Taiga Concept aims to create workspaces that reduce distractions and stress, thereby boosting well-being and productivity. The idea is to create the optimal functional surroundings that bring the positive aspects of nature to the office: fresh air, calmness and natural warmth. It's a place where one can relax and re-energize, get inspired, have a meeting or create their best work in private. From accessories to finishing, our products are designed to fit any kind of space without compromising the high-quality natural feel.

You don't have to travel far; nature can be brought straight to your office. Welcome to Your Natural Workspace.

1 m² ... 7 m²

LOHKO BOX

LOHKO BOX Series is our original product line, that features compact soundproof space solutions. It features product sizes from the classic phone booth up to a 7-person conference room. The high-quality materials from glass and wall elements to acoustic panels are also easy to customize to suit any interiors. LOHKO BOX products guarantee the efficient use of square footage as it combines Scandinavian minimalism, functionality and smart technology.

LOHKO BOX 2

10 m² ... 28 m²

LOHKO FLEX

LOHKO FLEX is our new product line that enables large spaces of up to 28 square meters. As the space scales, the smart electrics and the soundproofing systems expand accordingly. LOHKO FLEX has no floor structure so it's agile, light and easy to assemble. The soundproofing is integrated in the perforated walls that are easy to clean and allow flexible attachment of any office accessories. With LOHKO FLEX, you can easily divide your open space into smarter and more efficient zones.

LOHKO FLEX 14

Create Your Natural Workspace

Use automatic mode or control your workspace manually. Lights and ventilation are controllable through the control panel that is integrated in the product. In addition, the indicator light on the control panel will state the current CO2 levels, so that you will know when adjustments are required. The control panel is a seamless part of the table and easily withstands daily usage.

The product is equipped with a powerful and a quiet ventilation system. Exhaust and intake function through the roof element.

Adjustable lights enable the user to choose a preferred level of brightness.

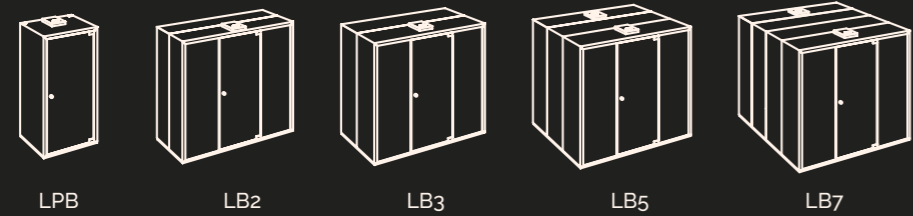

CO2 sensors on the product monitor the air quality. The indicator light on the control panel will state the current CO2 levels.

Timeless Design for The Modern Office

We are passionate about Scandinavian Design. No matter the trend, we will always follow a minimalistic approach. Thus, our products can be used in all kinds of spaces without the fear of them going out of style.

Sustainability

Taiga Concept, where feasible, sources materials from suppliers who are FSC compliant. This is based on our Timber Sourcing Policy Statement.

All our materials are regulated by the European Market and comply with the highest regulations available. This is inclusive of low emissions of VOC and formaldehydes. Our products are currently being tested by UL under UL 962, UL 2818 and UL 723. In that way all our surface materials including; plywood, acoustic and upholstery foams are being tested for material safety.

Our electrical components have been CB tested and all hold, at least, the CE Declaration of Conformity. All electrical components hold RoHS certificates and we are currently certifying our electrical system for safety under UL 962.

Our products have been tested for sound insulation measurements. We stand by the quality of our product and we are confident in the measurement achieved by previous testing. However, we will be carrying out further testing in accordance with the latest ISO standards.

Learn more about our tests and certificates on our website.
www.taigaconcept.com

Certification

Currently under evaluation for meeting all UL 962 and Greenguard (UL 2818) requirements.

Fire Safety

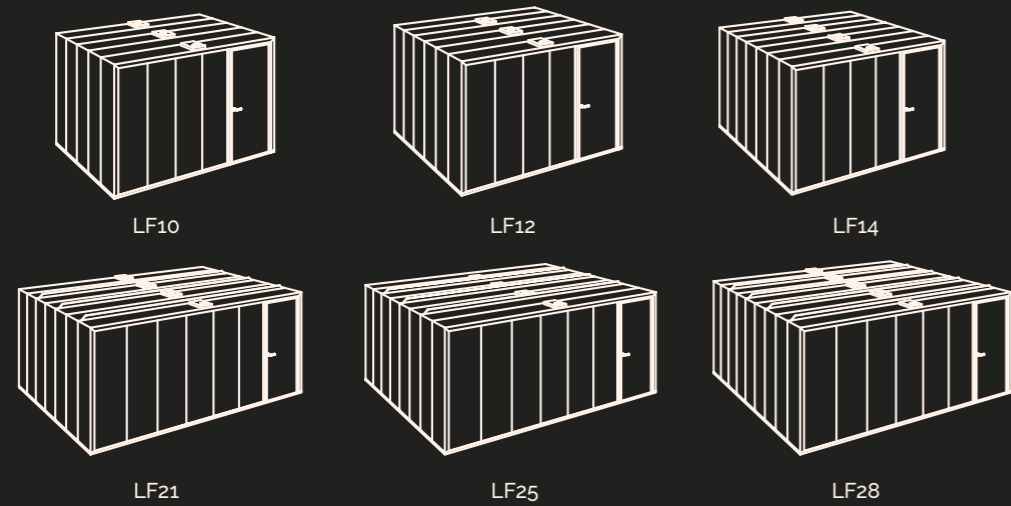

Currently under evaluation for meeting all UL 723 requirements.

www.taigaconcept.com

LOHKO FLEX - Smart In Technology & Design

- Cable channel both sides
- CO2 sensor
- Dimmable light
- RCBO on the roof
- Multiple finishing
- Control panel
- 4 universal sockets
- Tempered glass
- No floor structure
- Perforated roof and walls
- Soundproof door and walls

LOHKO FLEX 14

LOHKO FLEX 14 is a large 12-person room that works well with all types of spaces. Whether you need a conference room or a silent workspace in a noisy office, it should provide everything you need.

www.taigaconcept.com

LOHKO FLEX 21

LOHKO FLEX 21 can facilitate a full team of 14 people. It's perfect for any type of office as it works conveniently as a conference room or a coworking space for a large team. The size of this space is ideal to facilitate meaningful meetings or presentations.

www.taigaconcept.com

Dimmable Lights

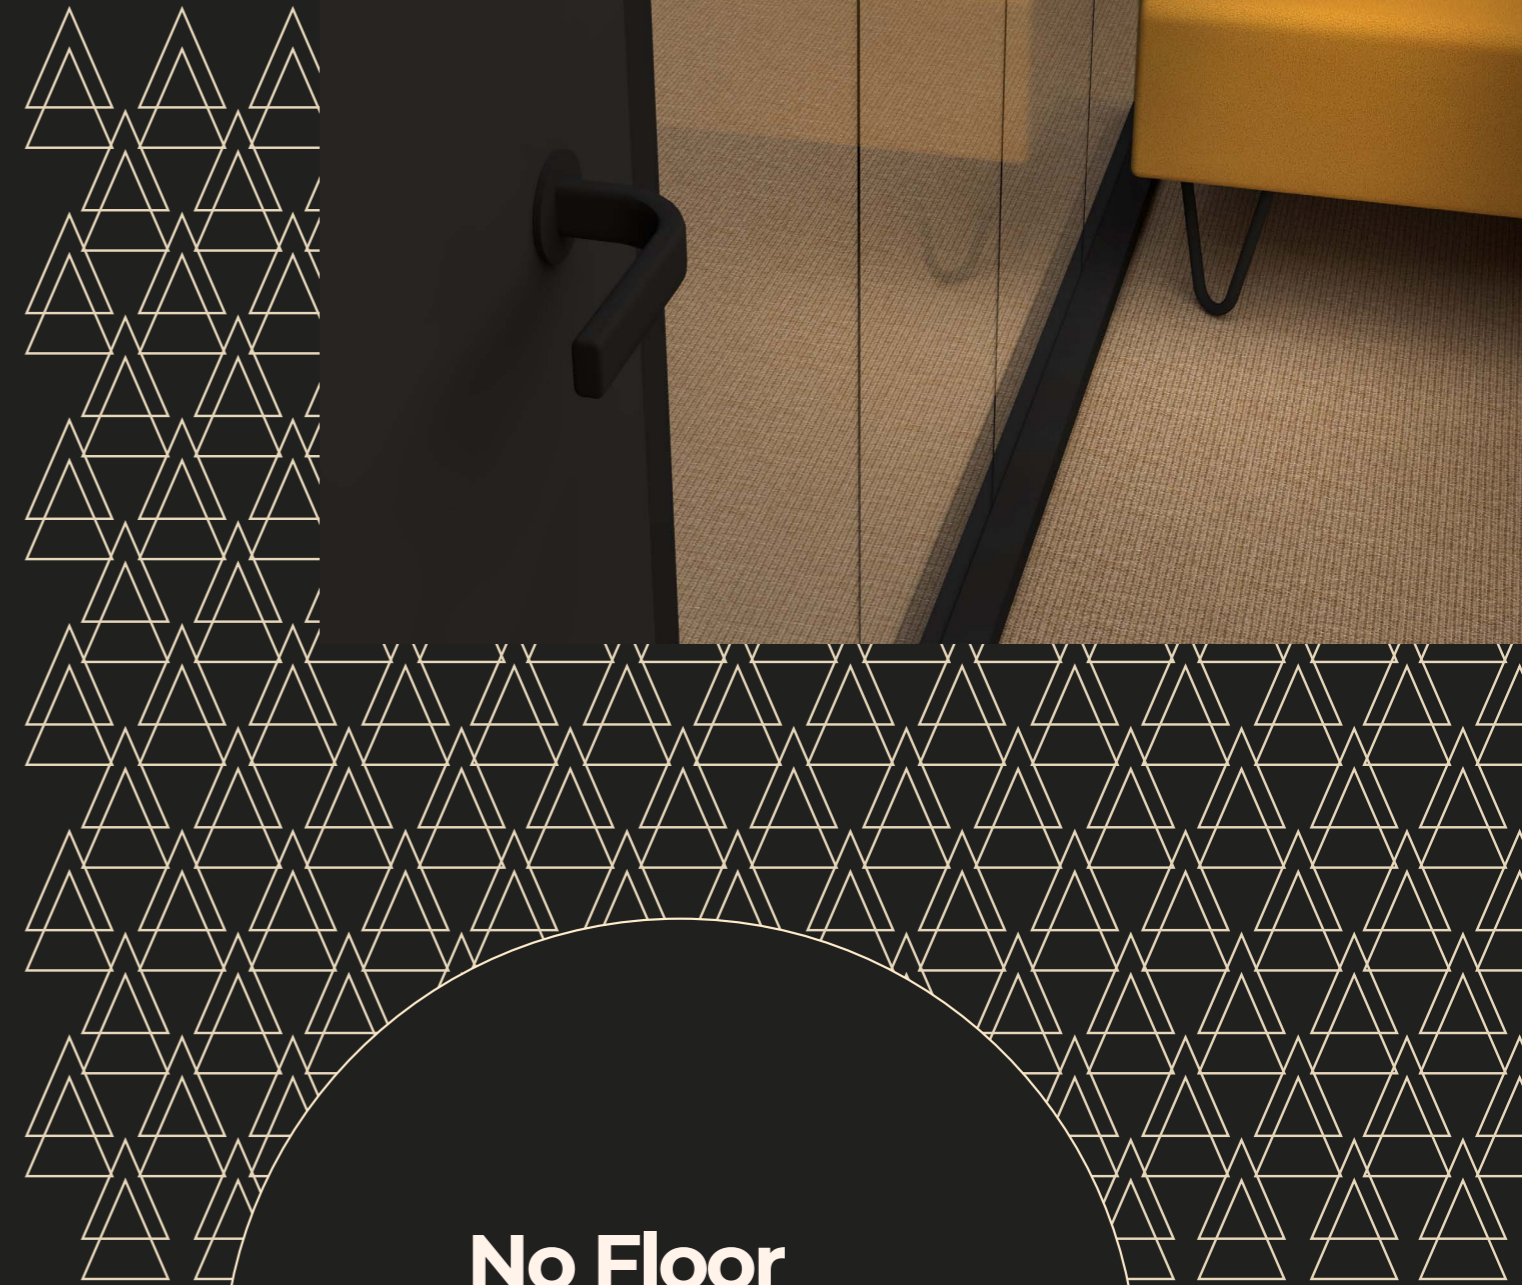

The light is integrated in the roof. A minimalistic LED strip that is focused on the workstation provides the optimal lighting for every booth. The dimmable lights enable the user to choose a preferred level of brightness.

Perforated Surfaces

The perforated wall and roof elements provide the workspace with effective soundproofing and natural acoustics. Because of this technology the walls are very easy to clean. Due to the perforation, any accessories are easy to attach without damaging the elements.

No Floor Structure

Without a floor structure, the product is agile, light and easy to assemble. Dividing an open space into smaller zones is convenient both for functionality and appearance.

Why Taiga Products?

Your Natural Workspace

Taiga's creative office solutions bring the positive aspects of nature to your office. Your natural Taiga workspace is not only a great place to work in, but it also reduces distractions in a noisy office, boosts productivity and increases well-being.

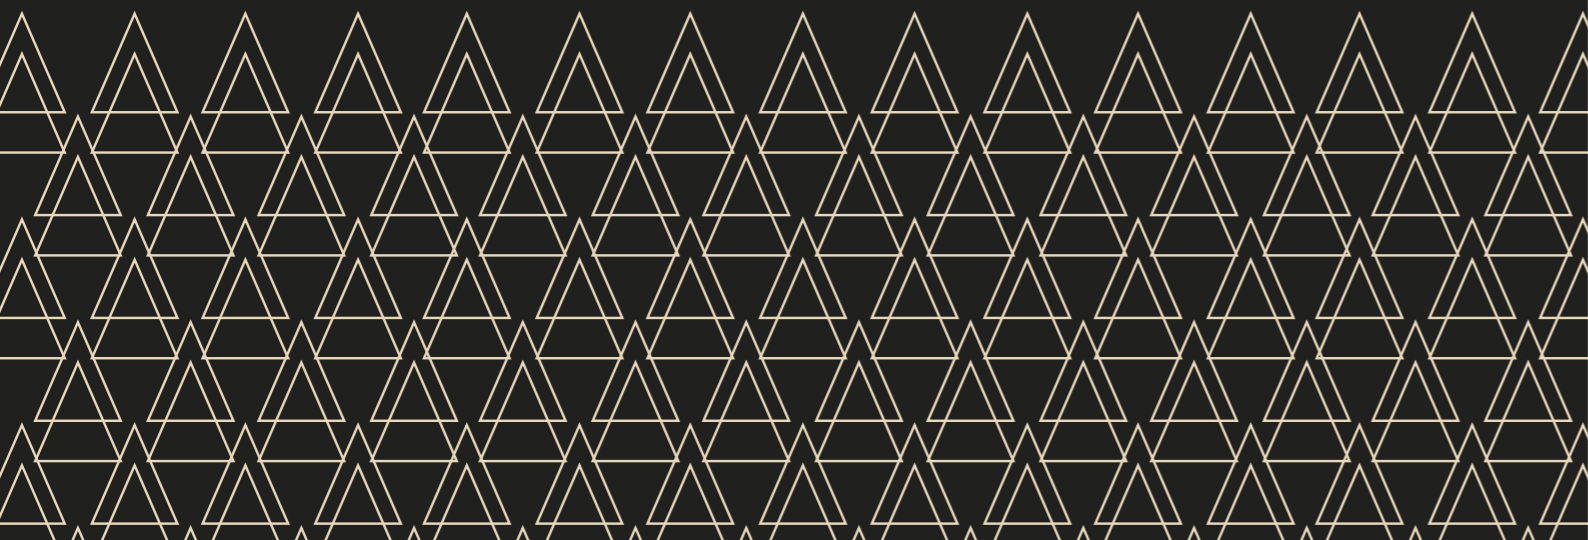

Smart in Technology and Design

Beautiful, timeless design is guaranteed with the minimalistic design of the products. All workspaces are equipped with modern technology that make them extremely functional and comfortable. In addition, it's also a beautiful piece of Scandinavian design.

You Create, We Enable

We acknowledge that no office is the same. That's why we have created a highly customizable product portfolio. We listen closely to our clients and are committed to create the dream office for every single one.

A man with short brown hair, wearing a red button-down shirt, is seen from the back. He is holding a smartphone to his ear with his right hand. He is standing in front of a large window that looks out onto a lush green forest with tall trees. The scene is brightly lit, suggesting daytime. The overall mood is professional and serene, emphasizing a connection to nature.
